

# Unlocking Smiles: Explore the latest Advancements in Fixed and Removable Full-Arch

## Course Description:

Discover the latest techniques for both fixed and removable full-arch solutions at this exclusive program. This course will empower you with advanced skills and knowledge in full arch restorations, enabling you to offer your patients more effective and efficient treatment options. Discover the ins and outs of fixed and removable full arch restorations, from treatment planning to mastering restorative workflows in our upcoming program, featuring a comprehensive lecture and hands-on workshop. This program offers a dynamic learning experience focusing on the art and science of fixed and removable full arch restorations. Participants will gain valuable insights into treatment planning and the seamless execution of restorative workflows.

## Course Objectives:

- Gain the ability to identify and assess full arch patients
- Understand the pros and cons of both fixed and removable full arch restorative options
- Understanding of the treatment planning processes for full arch restorations
- Practical application of restorative workflows for fixed and removable solutions

**Kerry Whalen**  
Business Development Manager,  
Digital

Kerry has been involved in implant dentistry for more than 18 years. After completing the Dental Assistant certificate program at Boston Career Institute in 2006, she began her career in the dental field for Bicon Dental Implants as a surgical dental assistant. In 2008 she was promoted to help manage the Bicon Dental Laboratory. In addition to laboratory responsibilities, she was responsible for customer service and retention, providing product support, and coordinating continuing education events. She also assisted doctors during hands-on product training sessions. In 2014, she left Bicon to complete her bachelor's degree in Business Management. During that time, she had a combination of clinical and marketing responsibilities for a private dental practice. In 2020 Kerry joined Leixir providing full arch support and chairside assistance. She is a Business Development Manager, Digital Dentistry Specialist for ZimVie. Kerry's unique blend of hands-on experience and deep understanding of the digital dentistry landscape make Kerry a trusted resource and asset to her clients within the dental industry.
