

Embrace the Future of Dentistry: Learn Digital Restoration Techniques for Enhanced Patient Care

TECHTALK

Dental Education
Learn. Do. Excel.®

Program Description:

Join us for an evening of learning, networking, and fun. This program will present the latest on ZimVie, and the digital workflow that integrates implants, Encode and RealGUIDE™. In this program participants will learn the latest innovations in digital restorations and gain a high-level understanding of full arch dentistry. Stay ahead of the curve by discovering the newest developments in digital restorations, including advanced techniques and emerging technologies.

Program Objectives:

At the completion of this program, participants should be able to:

- Recognize and leverage the advantages of the digital restorative workflow.
- Understand the resources available to simplify the implant restorative process to benefit patient outcomes.
- Develop a profitable office workflow that saves appointment time.
- Proficiently identify full arch patients and effectively plan for treatment.
- Master the art of effectively presenting full arch cases to your patients.

SPEAKER:

Kerry Whalen – Zimvie Team Member- US

Kerry Whalen is a Business Development Manager and Digital Dentistry Specialist for ZimVie, boasting 18 years of extensive experience in the dental implant industry. With a background as a dental assistant and dental technician, Kerry brings a wealth of expertise to the field of digital dentistry, particularly in the areas of full arch support and chairside assistance. Kerry's unique blend of hands-on experience and deep understanding of the digital dentistry landscape make Kerry a trusted resource and asset to her clients within the dental industry.
