

## UNLEASHING THE POTENTIAL OF DIGITAL DENTISTRY

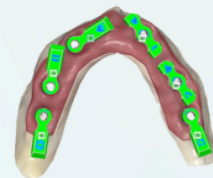

Immerse yourself in the latest advances in digital dentistry. Enjoy an evening of insightful learning, valuable networking, and hands-on experience as experts showcase the integration of photogrammetry alternatives, 3D printing, and digital workflows for full arch fixed hybrid cases. Attendees will gain the knowledge and expertise required to excel in full arch restorations using state-of-the-art digital dentistry techniques. We will cover the step-by-step process so you will have a better understanding of what options are available for these cases from start to finish. The lecture will be followed by a hands-on workshop focused on characterizing temporary prostheses. Don't miss this opportunity to elevate your practice with the latest in digital dentistry!

### PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

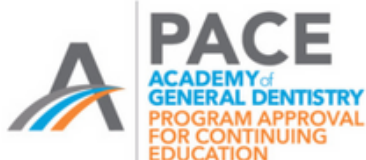

- Proficiently identify patients and effectively plan for full arch treatment.
- Recognize and leverage the advantages of the digital restorative workflow.
- Understand the resources available to simplify the implant restorative process to benefit patient outcomes.
- Develop a profitable office workflow that saves appointment time.
- Gain practical skills in the characterization of temporary prostheses during the hands-on workshop
