

TRANSFORM YOUR PRACTICE WITH DIGITAL DENTURES

COURSE SUMMARY

Explore the latest in digital denture technology in this hands-on course. Learn how 3D printing and advanced materials are transforming accuracy, efficiency, and patient outcomes. Gain experience with intraoral scanning and master the four main workflows for edentulous cases. Improve doctor-lab communication and avoid common pitfalls to ensure predictable, high-quality results.

LEARNING OBJECTIVES

- Understand digital denture technology, including 3D printing and material advances.
- Identify benefits for patients and practices, such as accuracy, efficiency, and streamlined workflows.
- Demonstrate proper intraoral scanning for high-quality edentulous impressions.
- Identify and address common edentulous scanning challenges.
- Improve lab communication for predictable denture outcomes.
- Apply best practices to integrate digital denture workflows.

Dr. Riddhi Patel

The Carolina Collaborative Study Club is a dynamic, invitation-only community of dentists committed to clinical excellence, collaborative learning, and elevating patient care. As an official Seattle Study Club chapter, we bring together passionate general dentists and specialists from the Carolinas who value continuous education, hands-on training, and meaningful peer connection.

Through case-based discussions, interactive workshops, and expert-led lectures, our members refine their diagnostic thinking, master new technologies, and stay at the forefront of modern dentistry. We believe in growing together, guided by a shared vision of excellence and mentorship in a supportive, collegial environment.

Join us for our upcoming Introductory Dinner and CE Event in partnership with Leixir Lab, where we'll explore the future of prosthodontics with a hands-on course on Digital Dentures and Overdentures. This evening offers a preview of the engaging, high-value experiences our study club provides throughout the year.

Whether you're looking to build a stronger referral network, grow your clinical confidence, or learn from the best in the field — Carolina Collaborative Study Club is where it starts.

Date: Thursday, July 24, 2025

Time: 6:00pm -9:00pm

Tuition: Complimentary

Emilie Gysi
Director of
Digital Adoption & Integration

With over 15 years in the dental industry, Emilie brings a wealth of experience in both orthodontics and dental hygiene, holding licenses as an RDH and PHDHP. Her passion for patient care and outcomes led her to expand into the dental lab space, where she has spent the past four years focused on digital dentistry and intraoral scanning. Emilie's career reflects a strong commitment to continuous learning and advancing the field of dentistry.

William Grill CDT

Bill has an extensive background in implant dentistry. He has over 40 years of experience in dental implants and has been working with full arch cases since their inception. He is an active member of the International Congress of Oral Implantologists, The American Equilibration Society, and The American Academy of Cosmetic Dentistry and is a speaker for several dental implant companies. Bill strongly believes in a team approach between the referring dentist, the surgeon, and the laboratory.

Leixir Dental Laboratory Group
