

## FROM IMPRESSIONS TO INNOVATION: THE DIGITAL DENTURE WORKFLOW

### COURSE SUMMARY

Digital dentistry has grown by leaps and bounds over the last 20 years. One area of recent rapid advancement has been in the field of dentures. Thanks to several new advancements in technology, the era of the analog denture—much like that of crown and bridge—is moving to the digital format.

In this class, we will review advances in scanning, design, and fabrication of dentures that are making this digital transformation possible. We will also discuss the advantages, disadvantages, and limitations of current workflows for denture production from digital images focusing on the patient experience

### LEARNING OBJECTIVES

- Analyze which digital denture workflow will work best in your practice.
- Apply updated digital denture workflows in your practices, whether you produce in-house or send out to a third party.
- Explore how digital dentures can significantly improve your patients' experience.

**Date:** Thursday, March 12, 2026

**Time:** 7:00-8:00 p.m. ET

**CE:** Attendees will earn 1 CE Credit

**Tuition:** Complimentary
