

## ENHANCING CLINICAL EFFICIENCY THROUGH CONNECTED DIGITAL DENTISTRY WORKFLOWS

### COURSE SUMMARY

This continuing education program provides an overview of connected digital workflows in dentistry, with a focus on intraoral scanning and digital case management. Participants will review clinical protocols for capturing accurate digital impressions for crown and bridge and implant procedures, as well as methods for managing and communicating case data within a digital environment. The program will also examine how digital platforms support collaboration between clinicians and laboratory partners, along with considerations for integrating digital workflows into daily practice. Through demonstration and clinical examples, attendees will gain insight into improving efficiency, accuracy, and communication in restorative and implant dentistry.

### LEARNING OBJECTIVES

After completing this course, participants will be able to:

- **Describe** digital workflows for intraoral scanning and case management in restorative and implant dentistry
- **Identify** methods for improving communication and collaboration between clinicians and laboratory partners using digital tools
- **Explain** clinical protocols for capturing digital impressions for crown and bridge and implant procedures
- **Recognize** the role of digital technologies in supporting efficiency and accuracy in restorative treatment
- **Discuss** considerations for integrating digital workflows into clinical practice

**Date:** Friday, May 1, 2026

**Time:** 1:00 p.m. - 2:00 p.m. ET

**CE:** Attendees will earn 1 CE Credit

**Tuition:** Complimentary

**Kent Wells**  
National Account  
Manager, Lab  
Dentsply Sirona

Since 2018, Kent has been a trusted advisor in digital dentistry, helping practices adopt intraoral scanning and digital workflows to improve efficiency, increase case acceptance, and enhance patient care.

He collaborates closely with dental labs to optimize workflows, strengthen communication, and implement advanced restorative solutions. With expertise in CAD/CAM, 3D printing, and intraoral scanning, Kent delivers tailored solutions that drive precise, predictable outcomes and keep clinicians and labs at the forefront of modern restorative care.

Leixir Dental Laboratory Group  
Nationally Approved PACE Program Provider for  
FAGD/MAGD credit.  
Approval does not imply acceptance by  
any regulatory authority or AGD endorsement  
1/1/2025 to 12/31/2026
