

ZI Live: Smart Denture Conversions: Predictable Strategies for Efficient Full-Arch Treatment - PART 1

ZI LIVE Webcast

Program Description

This 1-hour live virtual program provides clinicians with a practical, step-by-step approach to simplifying full-arch implant workflows. The first portion focuses on predictable analog techniques, including smart denture conversion, patient selection, treatment planning, multi-unit abutment protocols, and efficient provisionalization. Emphasis is placed on reducing chair time while improving consistency and patient outcomes.

Program Objectives

At the end of this lecture participants should be able to:

- Identify appropriate patient selection criteria and set realistic expectations for full-arch treatment.
- Understand the role and workflow of multi-unit abutments in full-arch implant cases.
- Compare traditional vs. smart denture conversion techniques to improve efficiency and reduce complications.
- Evaluate provisional and definitive restorative options for full-arch cases based on clinical indications.

James T. Ubertalli, DMD, FAGD

Dr. Ubertalli is a board-certified periodontist and magna cum laude graduate of Tufts Dental School who completed his residency in the US Army Dental Corps. He earned his specialty certificate in periodontics and implant dentistry from New York University and the New York VA Medical Center. He held an appointment as an assistant professor of periodontics at Tuft University and served as a clinical instructor of periodontal and implant surgery at New York University. Dr. Ubertalli is a Fellow of the Academy of General Dentistry and utilizes advanced technologies such as the iTero laser impression system, cone beam tomography and CAD/CAM guided surgery. In addition to his clinical work, he serves as the dental editor for the Merck Manuals and is a past-president of the Massachusetts Periodontal Society. His professional affiliations include the American Dental Association, the American Academy of Periodontology, the Academy of Osseointegration, the Massachusetts Dental Society and Massachusetts Periodontal Society for which he serves the board as past-president. He maintains a private practice in Hingham, Massachusetts.

Kerry Whalen Business Development Manager & Digital Dentistry Specialist

Kerry is a Business Development Manager and Digital Dentistry Specialist for ZimVie, boasting 18 years of extensive experience in the dental implant industry. With a background as a dental assistant and dental technician, Kerry brings a wealth of expertise to the field of digital dentistry, particularly in the areas of full arch support and chairside assistance. Kerry's unique blend of hands-on experience and deep understanding of the digital dentistry landscape make Kerry a trusted resource and valuable asset to her clients within the dental industry.
