

START SMART: OPTIMIZING PRE-PREP WORKFLOWS WITH INTRAORAL SCANNING

COURSE SUMMARY

Pre-prep scanning sets the foundation for more predictable and efficient restorative outcomes. In this session, learn how to capture high-quality scans, analyze key clinical insights, and build a digital-first workflow that improves both accuracy and patient understanding.

Discover how integrating scanning early in the process enhances treatment planning, simplifies clinical decision-making, and creates a more seamless experience from diagnosis through delivery.

LEARNING OBJECTIVES

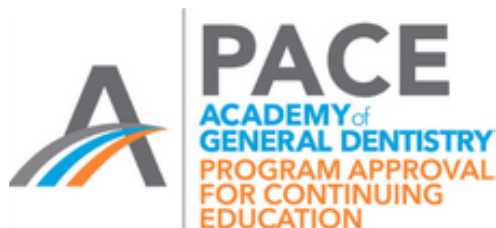

- Understand the clinical advantages of pre-prep scanning for diagnostics and case planning
- Utilize **DEXIS IS ScanFlow** to streamline scan capture, analysis, and workflow integration
- Leverage **DEXIS Imprevio** to support visual treatment planning and patient communication
- Apply best practices to improve scan quality, consistency, and efficiency

Date: Wednesday, June 17, 2026

Time: 7:30 p.m. - 8:30 p.m.

Tuition: Complimentary

CE: Attendees will earn 1 CE Credit

Leixir Dental Laboratory Group
Nationally Approved PACE Program Provider for
FAGD/MAGD credit.
Approval does not imply acceptance by
any regulatory authority or AGD endorsement
1/1/2025 to 12/31/2026

Veronica Blea

Veronica Blea has been in the dental field since 2008 where she worked as an expanded duty dental assistant and treatment coordinator. She did most of her training in a general practice and specialized in cosmetic dentistry before joining the DEXIS team. Veronica offers IOS training to our clients and not only educates on how to implement your intraoral scanner into your office but also how to increase productivity and improve patient care.
